EDUCATION

IUL   **Aug. 2022 – May 2025**
Bachelor of Science in Computer Science

EXPERIENCE

Frontend Internship   **Aug 2023 – Oct 2023**
SmartSoft Company
- Working with React.js to develop websites.
- Developed a web application using React, Material UI, and AgGrid.
- Collaborating with the team on GitHub.

HebboSites Company   **May 2023 – Present**
- Utilized MongoDB, Next.js, React, Tailwind CSS, and Sanity.io to develop full-stack websites.
- Specialized in creating UI/UX responsive websites.
- Implemented RESTful APIs for seamless communication between the front end and back end.
- Conducted code reviews and provided constructive feedback to improve code quality.
- Ensured the scalability and performance of web applications.
- Integrated third-party APIs to enhance website functionality.
- Developed and maintained database structures using MongoDB.
- Implemented user authentication and authorization features.
- Optimized website performance for faster loading times.
- Troubleshot and resolved bugs and issues in a timely manner.
- Stayed up-to-date with industry trends and emerging technologies.
- Participated in sprint planning, daily stand-ups, and retrospectives as part of the Agile development process.

Freelancer   **May. 2023 – Present**
- Leveraged Next.js, React, Tailwind CSS, and Node.js for building dynamic and responsive full-stack web applications.
- Integrated MongoDB and Firebase to design robust database structures and ensure seamless data management.
- Implemented audio processing using SoX to enhance the interactive features of web applications.
- Specialized in crafting intuitive UI/UX designs for optimal user engagement.
- Developed RESTful APIs to facilitate efficient communication between the front end and back end.
- Conducted thorough code reviews and offered constructive feedback to elevate code quality.
- Ensured the scalability and performance of web applications for optimal user experience.
- Integrated third-party APIs to extend and improve overall website functionality.
- Established and maintained secure user authentication and authorization mechanisms.
- Optimized website performance, prioritizing faster loading times and smoother interactions.
- Diagnosed and resolved bugs and issues promptly to maintain seamless functionality.
- Kept abreast of industry trends and emerging technologies to stay at the forefront of web - development.
- Actively participated in sprint planning, daily stand-ups, and retrospectives as part of the Agile development process.

PROJECTS

HebboSites | *NextJs, NodeJs, TypeScript, Mongodb, Tailwind Css, Uploadthing*   **May 2023 – Jun 2023**
- Created and implemented a full-stack web application utilizing Next.js for the frontend and Node.js for API development.
- Developed a dynamic form for data input, integrating MongoDB for secure and efficient data storage.

- Implemented image and CV uploading functionalities using Uploadthing.
- Utilized Tailwind CSS for a sleek and responsive user interface.
- Visualized GitHub data to showcase collaboration metrics.

Mashabeat | *Shopfiy, Liquid, Tailwind Css, Jquery, Sox* **Oct 2023 – Mar 2024**
- Collaborated with a dynamic team to establish an e-commerce platform on Shopify dedicated to the buying and selling of music.
- Developed the website using Shopify's Liquid, jQuery, and Tailwind CSS, ensuring an immersive and responsive user experience.
- Integrated secure artist login functionality through Shopify, enabling musicians to effortlessly upload and sell their music.
- Utilized the Sox library and Node.js to create a custom API that seamlessly converted requested music, overlaying it with an audio jungle watermark from Mashabeat Audio.
- Enhanced user interaction by implementing robust cart functionality and streamlining the checkout process using Shopify for secure and efficient payments.
- Contributed to the overall success of the platform, providing a tailored experience for music enthusiasts and empowering artists to showcase and sell their creations seamlessly.

Asquared Crypto | *NextJs, Tailwind Css, Resend* **May 2023 – May 2023**
- Developed a visually stunning and responsive website using Next.js and Tailwind CSS, showcasing expertise in UI/UX design.
- Integrated Resend to facilitate efficient mass messaging to the website owner via email, enhancing communication capabilities.
- Ensured a seamless user experience with a beautiful and intuitive design, emphasizing both aesthetics and functionality.
- Leveraged Next.js to create a dynamic and performant website, meeting modern standards in web development.
- Contributed to the overall success of Asquared Crypto, delivering a website that aligns with industry trends and user expectations.

TECHNICAL SKILLS

- **Languages**: JavaScript (Node.js, React, Next.js), TypeScript, HTML, CSS, Java, Python, C/C++, Dart, PHP, C#, Liquid
- **Frameworks**: React, Next.js, Express, React Native, Flutter
- **Web Technologies**: , Shopify, ngrok, Uploadthing,
- **Frontend Technologies**: Tailwind CSS, Bootstrap, Material-UI
- **Mobile App Development**: React Native, Flutter, Dart
- **Backend Development**: Node.js, Express
- **Databases**: MongoDB, MySQL, Firebase
- **Audio Processing**: Sox, FFmpeg
- **Version Control**: Git, GitHub, Bitbucket
- **IDEs**: VS Code, Android Studio, PyCharm
- **Libraries**: Nodemailer, Email.js, React Email, Resend
- **Animation Libraries**: Framer Motion, GSAP
